VISAGE GOLF CART GPS SYSTEM

The **Visage Golf Cart GPS System** is a service provided by Medinah Country Club that will add value to your golf outing. Not only is this extra exposure for your event sponsors, but this system can also enhance the player's experience on the golf course. From friendly reminders, directions and messages to sponsor ads and foundation information this tool is something that your organization can benefit from using. We offer one course and multiple course packages. Examples are enclosed in this brochure to give you a better understanding of this service and all of the capabilities it can offer.

ONE COURSE PACKAGE

\$350

The **One Course Package** is for an outing using one golf course. With this package your group will be provided with the following Visage Golf Cart GPS System features:

WELCOME SCREEN SIGN

FULL SCREEN TEE BOX SIGNS (MAXIMUM OF ONE SIGN PER HOLE)

INSERT SCREEN SIGNS (MAXIMUM OF ONE SIGN PER HOLE)

FULL SCREEN HOLE SIGNS (MAXIMUM OF THREE PER COURSE)

MESSAGE CAPABILITIES

MULTIPLE COURSE PACKAGE

\$650

The **Multiple Course Package** is for an outing using more than one golf course. With this package your group will be provided with the following Visage Golf Cart GPS System features:

WELCOME SCREEN SIGN

FULL SCREEN TEE BOX SIGNS (MAXIMUM OF ONE SIGN PER HOLE)

INSERT SCREEN SIGNS (MAXIMUM OF ONE SIGN PER HOLE)

FULL SCREEN HOLE SIGNS (MAXIMUM OF THREE PER COURSE)

MESSAGE CAPABILITIES

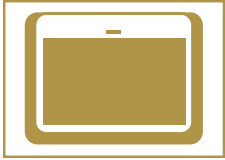

WELCOME SCREEN

The **Welcome Screen** is displayed on the golf cart screens while the golf carts are staged prior to the shotgun. This is a useful feature that allows you to welcome every player to the outing with any logos or titles you deem fit for your group.

EXAMPLES OF THE WELCOME SCREEN

FULL SCREEN TEE BOX SIGNS

The **Full Screen Tee Box Signs** are displayed on the golf cart screens when golf carts arrive to the tee box on any designated hole. When the players drive to the fairway after their tee shot the image will go away by clicking "return to golf" bringing players back to the hole layout with yardages. This is a useful feature that provides extra exposure to event sponsors and can provide the players with pertinent event or foundation information.

EXAMPLES OF THE FULL SCREEN TEE BOX SIGN

INSERT SCREEN SIGNS

The **Insert Screen Signs** are displayed on the golf cart screens in the bottom corner while players are in golf mode. Golf mode is when yardages and hole layout information is provided on the screen. Tucked away in the bottom corner, these insert screen signs provide an excellent way for even more exposure for your sponsors and foundation.

EXAMPLES OF THE INSERT SCREEN SIGN

Presented by  Insight

FULL SCREEN HOLE SIGNS

The **Full Screen Hole Signs** are displayed on the golf cart screens at the green of a designated hole. When the players drive and park next to the green this screen will pop up. A limit of three of these signs per course are available as we do not want the golf cart screens to take over the player's experience. This is a useful feature that provides friendly reminders on pace of play, lunch locations, donation/raffle information and much more.

EXAMPLES OF THE FULL SCREEN HOLE SIGN

MESSAGE CAPABILITIES

The **Visage Golf Cart GPS System** has the capability of messaging all carts or particular carts. This feature is very effective if there is a need for communication during play. Some types of communication we commonly use with this feature are:

DINNER/LUNCH FUNCTION LOCATION REMINDERS

PACE OF PLAY REMINDERS

DIRECTIONS

EVENT INFORMATION REMINDERS

WEATHER CONTINGENCY PLANS
